DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Taiwan on 24 June 2003. It is noted, however, that applicant has not filed a certified copy of the foreign application as required by 35 U.S.C. 119(b).

Drawings

2. Figures 1A – 1D should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1 – 20 are allowed over the prior art of record.

4. The following is a statement of reasons for the indication of allowable subject matter: Okumura in the U. S. Patent 6,815,269 B2 substantially discloses the claimed invention. However, Okumura does not show, teach or suggests wherein the second amorphous layer is fused to the first polysilicon layer and crystallizing the unfused portion of the second amorphous layer.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Art Unit: 2823

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

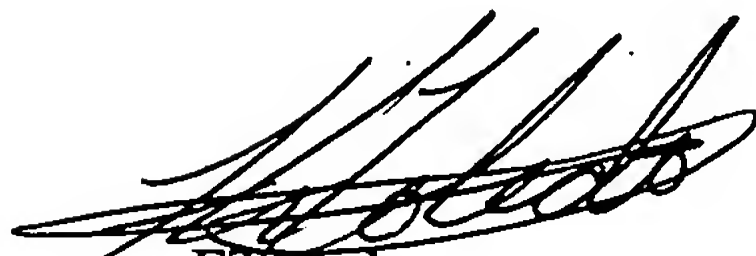

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
